

**INTRODUCING THE INDUSTRY DISRUPTING
MOBILE COMMAND CENTER**

MCC MINI

Purpose-built to change the industry relative to size, performance, and cost for rapidly deployable, ruggedized, and portable LTE connectivity.

ANTENNA

Custom-designed and laboratory tested high-gain antenna system built directly in to the lid, eliminating a major pain point in traditional paddle and stick antenna solutions that reside outside of deployable kits.

SECURITY

Ability to lock the case to eliminate tampering.

MIL-SPEC 1P67 RUGGED CASE

Solution is encased in a weatherproof, rustproof, and drop-tested lightweight carrying case. Fully-functional even when case is closed and locked.

CUSTOM BRANDING

Customize with your customer's logos everywhere you see CSG logos.

SMALLEST FORM ON THE MARKET

12" x 9" x 5" and only 6 pounds!

CUSTOM MOUNTING HARDWARE

Designed and tested to eliminate the risk of overheating.

PORT ACCESS

Weatherproof exterior port access to USB data, USB charging, WAN/LAN, and power buttons.

CRADLEPOINT IBR900

Connectivity via ruggedized VZW Cradlepoint IBR900. Remote web-based access to all key configurations, reliable VPN functionality, enterprise grade security, and up to 128 individual WiFi connections.
